

21436

SPEAKER STAND

Product variant

21436-009-55 - black

Data

Height	from 1,320 to 2,020 mm
Height adjustment	locking screw with push-button system
Leg construction	tube legs with cross braces
Material	aluminum
Max. load capacity	40 kg
Product Category	Baseline
Rod combination	2-piece folding design
Special features	lightweight stand; patented gradual height adjustment system; integrated shock absorber; steel extension tube; mounting aid included
Tube end(s)	diameter 35 mm
Type	black
Weight	3.41 kg

The standard speaker stand constructed from aluminum has been significantly improved. The new legs with a tubing diameter of 35 mm and the large, fixed foot end caps guarantee stability and safety. Lasered bore holes and durable, robust plastic saddle washers improve the coefficient of friction between the legs and braces, and prevent scratching of the finish. A compact clamp with a patented push-button system affords user-friendly stand height adjustment. The locking screw provides additional stability and vibration-free speaker mount. Additional features include a pull-out guard for the extension tube and an integral anti-shock component.
